

Introducing Read&Write...

Helping students reach their full potential

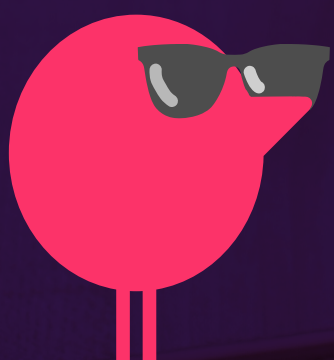

What is Read&Write?

Read&Write is a literacy support toolbar, proven to improve students' reading and writing. With features to support a diverse range of learners in class, at home, during revision and in exams. Working seamlessly with virtually any kind of educational content – such as websites, Microsoft Word files, PDFs and Google Docs – Read&Write helps to ensure that every student can access content and build their confidence, understanding and engagement in learning.

Save time
building resources

Give students the tools
they need to succeed

Promote student
independence

For every student, in every class

Read&Write is necessary for some students but it's also beneficial to all because every student learns in different ways. Meeting the needs of a diverse classroom can be challenging but Read&Write offers one solution with multiple features that help teachers provide personalised learning experiences.

Whether students need support with word recognition, pronunciation and spelling, or helping them study smarter when revising or completing homework, Read&Write can help.

Text-to-speech

Having text read aloud helps with proofreading and allows students to notice the pacing of words, sentences and paragraphs.

Word prediction

Predictive text boosts writing efficiency and helps build student confidence.

Audio maker

Convert class content into audio files to listen and learn on the go.

Highlighters

Highlight key pieces of text, build vocabulary lists and organise content by collecting highlights.

Read&Write is now available for students
to use in class and at home
