

Empower your unique workstyle with Read&Write for Work

A powerful set of digital tools to help everyone work with more confidence, accuracy and efficiency.

The software also includes tools designed specifically to support those of us with a neurodiversity such as **dyslexia, autism and ADHD**.

3 ways you will benefit from Read&Write

Hear content **read out loud** for speedy reading, to reinforce understanding, or to proofread your work

Improve focus and minimize eye strain with **color screen masking** and **reading ruler**

Screenshot text from anywhere to make it **accessible & editable**, saving you time having to retype content

Available now!

Read&Write for Work supports over 40 million people worldwide to understand, work and communicate in the way that they prefer. **Now, it's available to you too.** Download it today and support your unique workstyle.

Discover how to use Read&Write by following the **instructions on the back** of this card.
